

Amendments to the Specification:

On Page 8, please amend the fourth full paragraph as follows:

[0033] As shown in Fig. 3(a), elongated metal contacts 13 held by an insulator 12 are provided inside the opening. In Fig. 3(a), it is seen that there are provided only plate-shaped connecting portions 59 arranged in two rows of upper and lower surfaces. The connecting portions 59 are fitted to a non-illustrated mating plug connector.
